# Hazard Symbols Review

These symbols alert users of a safety condition that demands attention. All users should be able to recognize and understand the significance of the following Safety Hazards if encountered on the product or within the documentation. Children who are not able to recognize and respond appropriately to Safety Alerts should not use this product without adult supervision!

Symbol	Signal Word	Level of Hazard
	<b>NOTE</b>	A NOTE indicates important information that helps you make better use of this product.
	<b>CAUTION</b>	A CAUTION indicates either potential damage to hardware or loss of data and tells you how to avoid the problem.
	<b>WARNING</b>	A WARNING indicates either potential for property damage, personal injury, or death.
	<b>ELECTRICAL</b>	An Electrical indicates an impending electrical hazard which, if not avoided, may result in personal injury, fire and/or death.

## Safety

Important! You will need to adjust this product after installation is complete. Make sure all your equipment is properly installed on the product before attempting adjustments. This product should move smoothly and easily through the full range of motion and stay where you set it. If movements are too easy or difficult or if product does not stay in desired positions, follow the adjustment instructions to create smooth and easy movements. Depending on your product and the adjustment, it may take many turns to notice a difference. Any time equipment is added or removed from this product, resulting in a change in the weight of the mounted load, you should repeat these adjustment steps to ensure safe and optimum operation.

 **Caution:** If combined LCD and CPU weight is greater than 27lbs (10.4kg) then the CPU must be mounted to the rear of the cart using a CPU holder accessory (ordered separately).

 **Caution:** Use of this accessory allows the cart to be configured with a high center of gravity. Do not exceed the maximum capacity of 24lbs.

 **Warning:** To avoid the potential to pinch cables it is important to follow the cable routing instructions in this manual. Failure to follow these instructions may result in equipment damage or personal injury.

 **Warning:** When the height adjustment and assembly are at maximum height this creates a tipping hazard. Lower work surface before moving cart. Failure to follow these instructions may result in equipment damage or personal injury.

**⚠ WARNING**

---

**Impact Hazard!**  
 Moving Parts can Crush and Cut.  
 Raise monitor to top of vertical adjustment BEFORE removing.  
 Failure to heed this warning may result in serious personal injury or property damage!

---

**TIPPING HAZARD**  
 Lower cart before moving.  
 Failure to follow these instructions may cause cart to tip resulting in equipment damage and/or personal injury.
